BLOOD DONORS RUSH TO AID IN EMERGENCY AT KAMLOOPS

The switchboard at Royal Island hospital, Kamloops, was jammed with calls Tuesday following an appeal for emergency supplies of a special "O" type blood needed to save the life of a man undergoing an operation.

And RCMP patrol car had rushed blood from Salmon Arm hospital.

The public appeal was sent out when this supply proved not enough for the 75-year-old man, undergoing surgery for a ruptured artery.

But more than enough was obtained from volunteers answering the appeal to last through the nine-hour operation by a surgical team. In all 26 pints were used during the operation.

"I am amazed at the response," said hospital administrator J. M. Morrison. "The hospital switchboard was jammed for over an hour with calls coming in from all over the place."

Miners' Army Invades Paris As Labor Troubles Increase

PARIS (Reuters)—Two thousand striking iron miners from Eastern France invaded Paris for a protest march today in another manifestation of growing labor troubles in France.

The men came 185 miles from Plessis in the Lorraine mine fields in a long cavalcade of cars, tankards and trucks.

They received demonstrations of support from workers at factories in the Paris suburb of Pantin.

The iron miners represent about 20,000 workers in privately owned Lorraine mines.

Meanwhile many Paris dairies were without milk because of a 24-hour strike by deliverymen employed at central milk depots.

A spokesman for the iron miners' union said Tuesday night that industry Minister Michel Bokanowski had agreed to meet a delegation from the strikers when the convoy reached Paris.

The iron miners, who went on strike two weeks ago, are demanding substantial wage increases. They plan to demonstrate outside the National Assembly during today's weekly meeting of the French cabinet.

DISCUSS COAL STRIKE

It was expected the chief topic on the cabinet agenda would be the labor situation. A major trouble spot is a 13-day walkout by more than 200,000 coal miners which has virtually paralyzed production in the government-run coal industry.

Orders went out to riot police Tuesday to guard against any intervention by anti-Gaullist terrorists in the strike after reports of plans to stir up violence in the coalfields.

It was feared the terrorist Secret Army Organization might take advantage of the growing tension to further their aim of overthrowing the government of President de Gaulle.

Society To Clothe Animals Shapes Up As Publicity Stunt

NEW YORK (AP)—The Society for Indecency to Naked Animals shaped up today as a stunt to promote the sale of a new record.

The society resented publicity last week when its pickets circled the White House with placards asking President Kennedy's wife: "Won't you please clothe your horse for decency?"

Vice president (and picket) Bruce Spencer said that SINA was a band of 50,000 moralists headed by C. Clifford Prout Jr. of New York. Prout's late father had left \$400,000 to institute an organization dedicated to the proposition that "all animals should wear clothing for the sake of decency," Spencer said, and Prout was carrying out his father's wishes.

The man using the name of Prout is a writer for the Garry Moore television show, with the professional name of Buck Hunk and the actual name of Buck Zuckerman. He was reported by his office today to be in California.

Time magazine quotes Zuckerman as saying: "It's not fair to say G. Clifford Prout Jr. doesn't exist. A large part of the time that is who I am."

The magazine adds: "A more thorough explanation was to be found in a just-released record inside SINA, narrated by all people, vice-president Spencer."

Soviet Troops Leaving Cuba At "Relatively Slow" Rate

WASHINGTON (AP)—United States sources said today Soviet troops are leaving Cuba at a relatively slow pace with only two days remaining in which Premier Khrushchev can keep his pledge to President Kennedy that "several thousand" would depart by mid-March.

In Moscow, the Communist party newspaper Pravda said four ships carrying troops had sailed and a fifth was loading.

It said the fourth, the 11,030-ton Black Sea cruise ship Grizya (Georgia), left Sunday carrying specialists who had been training Cubans in "powerful, up-to-date Soviet military techniques."

This is the first time any such departure story has appeared in the Soviet press, indicating the beginning of a propaganda build-up.

Pravda's dispatch from Havana said that the jobs of the specialists who sailed Sunday were finished, and that Premier Castro's government had agreed that the Soviet experts could go home.

U.S. experts in Washington estimated there were 17,500 Soviet military personnel in Cuba when the withdrawals began. This was 5,000 fewer than believed stationed there at the height of the Cuban crisis last October.

UK's Own Fault — French Envoy

LOS ANGELES (AP)—French ambassador Hervé Alphand said today it is Britain's own fault it didn't get into the European Common Market.

Britain, he said, asked "for exceptions . . . that were contrary to the spirit and the letter" of the Home treaty which established the European community.

Alphand maintained that the Common Market's door is not closed to Britain. He suggested an agreement between Britain and the Common Market which would help develop trade and leave Great Britain free to proceed with the indispensable evolution he said is necessary for Britain before it could ask for admittance again.

Cemetery Strike No Health Hazard

VANCOUVER (CP)—Eleven bodies stored here pending settlement of a gravediggers strike pose no health hazard, the president of two struck cemeteries said Tuesday night.

"There is no health hazard," said Gilbert Arnold, president of Ocean View and Forest Lawn cemeteries.

Thirty gravediggers, members of Local 602 of the Construction and General Laborers' Union, struck the two cemeteries Monday to back demands for a 15-cent hourly increase over the basic rate of \$1.85 an hour. The cemeteries are being picketed.

TEDDIES PLAY FIGHTING GAME

OK Teddy Bears went down fighting in the first game of the Canadian women's senior "A" basketball tournament in the high school gymnasium Tuesday. Final score was 44-43 in favor of the Saskatoon Aces. The Aces now play Edmonton Jasper Auto Parts in Kelowna tonight. See story page 8. In this picture Teddies' Mary Fielder (4), delivers a set shot, early in the first quarter. Others in the photo are Diane Haney (3) and Judy Jenkin (13) of the Aces, and Anita Stewart (11) of the Teddy Bears. (Courtesy Photo)

Water Rationing Sequel To U.S. Tornadoes, Floods

HARLAN, Ky. (AP)—Water rationing was to begin in Harlan today as one result of devastating floods which, along with deadly tornadoes have left more than 30,000 persons homeless and property damage in the millions in the southern United States.

Seventeen persons were dead and six others missing. Twelve of the deaths were attributed to floods and five to tornadoes.

One of several washouts caused by torrential rain knocked out the pumping station at Harlan Tuesday leaving the city and outlying communities without water.

Civil defence director Bill Haight made arrangements to truck water from fresh wells on a hillside and from a soft drink plant at nearby Baxter if the plant could distill river water for drinking.

Jobless Total At 545,000; "Not An Appreciable Change"

OTTAWA (CP)—Unemployment in Canada stood at 545,000 in mid-February, the Dominion Bureau of Statistics and labor department said today in a joint statement.

This was 4,000 more than the mid-January total. The statement described this as "no appreciable change" in the period when, in previous years, unemployment has tended to rise.

The jobless total was 38,000 less than the 583,000 unemployed in February last year.

Latest jobless rate is 8.4 per cent of the labor force compared with 8.3 a month earlier. The mid-February rate in 1962 was 9.1 per cent and two years ago it was 11.3.

The number of persons with jobs was 5,951,000 in mid-February compared with 5,956,000 in mid-January, a drop of 4,000 but an increase of 111,000 from a year earlier.

DENIES ATROCITIES

Hirsch Berenblat, assistant conductor of the Israeli opera, denied charges in Tev Aviv court that he collaborated with the Nazis as commander of the Jewish militia in Bendlin, Poland. He is accused on 12 counts of helping to deport Jews to extermination camps, whipping Jews and other atrocities in 1942-43.

WARSHIPS VERSUS FISHING BOAT Soviet Claims U.S. Attack

MOSCOW (CP)—The Soviet Union charged today that three United States warships fired dummy shells at a Russian fishing vessel last Friday in international waters about 70 miles east of Norfolk, Virginia.

A protest to Washington asserted two cruisers and a destroyer fired on the refrigerator trawler in "an act of sheer wantonness which could have grave consequences."

"The U.S.S.R. government regards this shelling as a gross violation of generally accepted international law standards and of the principles of freedom of navigation in the open sea," an announcement by the Soviet news agency Tass declared.

The Russians said the trawler was engaged in fishing on the high seas when the warships approached at 12:15 p.m. "In all, four shots were fired, endangering the trawler and her crew," Tass said.

ANKS PUNISHMENT

"The Soviet government expects that those guilty will be punished and the necessary measures taken to prevent such actions in the future."

Tass made no mention of dummy, or non-explosive shells. But Moscow radio referred to the shells as dummies after first reports of the protest left confusion as to whether the Russians claimed "shrapnel" or "dummy" shells had been fired because of the similarity of the two words in Russian.

"According to information received, two American cruisers of the Boston class and one destroyer of the Benkens class fired on the Soviet fishing trawler-refrigerator Os-116 007 engaged in fishing in the open seas," the protest said.

PROBE CLUE

WASHINGTON (AP)—The United States has started an investigation of the Moscow charge that American warships fired on a Soviet fishing vessel in the Atlantic off Norfolk, Va., last Friday.

State department officials said today the inquiry was being made by the navy in an effort to determine what — if anything — actually occurred.

No Favors Given Claims Witness In Graft Hearing

Estimate Sheet Changes Described To Committee

VICTORIA (CP)—Dick Holzworth, a Montana contractor who sparked an inquiry into allegations of graft in the British Columbia Highways Department, said today he knows of no favors given to him or any other company by the highways department.

But he qualified his statement before the legislative public accounts committee hearing by adding, unless changes in estimate sheets in a 1958 Trans-Canada Highway project could be considered "favors."

Holzworth, president of Union Contractors Ltd., of Helena, Mont., signed an affidavit that Feb. 26 by Gordon Dowling (NDP-Burnaby). The affidavit was presented in the legislature, alleged, among other things, that \$133,000 too much was paid on the highway project near Revelstoke, B.C., through alteration of estimate sheets.

Holzworth made his statement on preferential treatment under cross-examination by Angelo Branca, counsel for the highways department.

Mr. Branca asked him specifically whether there was any preferential treatment or favors handed out by Highways Minister Gagliardi or anybody else in the department in connection with the project.

Mr. Holzworth answered he knew of none that was "actually handed out," adding unless changes in the estimate sheets could be called a favor.

He also was asked whether Bert Lymburner, described as a \$1,000-a-month contact man with the department of highways, received favors from the department.

Mr. Holzworth said he "did not know, but I imagine so."

He was asked if he considered Project 1023, a contract awarded to Continental Contractors Ltd., a company formed by the principals of Union, could be considered preferential treatment.

Mr. Holzworth said it was supposed to have been, but it wasn't.

Man Charged In Strangling

BELMONT, Mass. (AP)—Roy Smith, 35-year-old Negro handyman, was charged in Cambridge district court today with murdering a Belmont housewife by strangulation. He pleaded not guilty and was held without bail for further hearing March 29.

Through 12 hours of questioning, Smith maintained he was innocent in greater Boston's ninth such murder in less than 10 months. He insisted that Mrs. Bessie Goldberg paid him \$8.80 for cleaning her home Monday and that she was alive and well when he departed.

Mrs. Goldberg's husband, a businessman, returned a short time after Smith said he left and found his wife dead—with one of her stockings knotted around her throat.

The defendant, a native of Memphis, Tenn., describes himself as one of the nine children of a preacher. He is the first person to be charged with any of the nine stragulations of women.

UK Agrees To Consider Plan For Mix-Manned NATO Force

LONDON (Reuters)—Britain agreed today to consider new ideas suggested by its NATO allies for setting up an American-proposed \$5,000,000,000 mix-manned NATO nuclear force.

The agreement was contained in a communique issued by the foreign office at the end of two days of talks between President Kennedy's special NATO envoy, Livingston Merchant, and British leaders.

The communique said the talks revealed a "wide area of common understanding" between Britain and the United States on various aspects of the joint nuclear force.

A similar statement was made in Bonn last week at the end of Merchant's talks with West German leaders on the formation of the force which would have the airborne Polaris missile as its nuclear backbone.

Authoritative British sources said both the U.S. and Britain were satisfied with the talks.

Chinese Invite Mr. K. To Peking

PEKING (Reuters)—The Chinese Communist party has invited Soviet Premier Khrushchev or some other high Soviet leader to visit Peking for talks to settle the ideological dispute between the Soviet and Chinese Communist parties, it was disclosed today.

STOP-PRESS BULLETINS

U.S. Railroad Talks Break Down

CHICAGO (AP)—Negotiations between the American railroads and the operating unions on their dispute over work rules broke down today less than 1½ hours after they began.

Tribesmen Wound Kenya Officer

NAIROBI, Kenya (Reuters)—A district commissioner was speared in the arm today in a clash between a police unit and 200 tribesmen in Kenya's tense northern frontier district, police reported. Police said Commissioner Ltd.-Col. J. W. Balfour, 56, was not seriously injured.

Diphtheria Threat Families Quarantined

FORT MACLEOD, Alta. (CP)—Several families who refused because of their religion to be immunized against diphtheria have been quarantined, the Chinook area medical officer Dr. Kurt Adler said today. (See earlier story page 8.)

East Germany Downes Finland 1-0

STOCKHOLM (CP)—A goal by Helmut Novy with less than two minutes left in the game gave East Germany its first hockey victory of the world hockey championships today, 1-0 over Finland.

STRIPPED VOTE PLAN RIGHT OFF

LONDON (AP)—Arthur Fox has had to write strip-teasers out of the script for his campaign for Parliament.

Fox opened his campaign Tuesday with two leggy but fully dressed women on the platform with him.

They were strippers from the Manchester night club which Fox owns. Both were foreigners — Gloria (Baby Doll) Ayala and Fraulein von Manuela.

The home office ordered Fox to campaign without his girls after the Variety Artists' Union complained that the girls' work permits didn't say they could go electioneering.

Fox, 54, is running as an independent for a vacant Yorkshire seat in the House of Commons. Without strippers to help his campaign, he isn't given a chance of winning.

NAMES IN NEWS Kamloops Trophy Won

Glenn Shannon's Stock Farms, Kautskov, claimed the David Spencer trophy as the grand champion in fat stock single steer classes at the 45th annual Kamloops Provincial Bull Sale and Fat Stock Show Tuesday. The trophy was presented to Mr. Shannon by Victor Spencer, son of the donor. The reserve championship went to Arthur Harman of Bridesville. David and Frankie Kern of Kamloops won top honors in the boys and girls event.

Premier Louis J. Robichaud Tuesday announced in the legislature a New Brunswick general election for Monday, April 22, two weeks after the April 8 federal election.

John Dugdale, 57-year-old former minister of state for the colonies and a lifelong opponent of the color bar in colonial territories, died in London Tuesday night.

Transport Minister Leon Balcer Tuesday night proposed in Montreal establishment of a permanent secretariat "of the two nations" to study the causes of French-English conflicts in the country.

LINKUP SOUGHT

Salah Bitar, new premier of Syria, has reportedly made overture to Premier Nasser of the United Arab Republic for a link-up of Arab states, including Syria, Syria once before was a member of the UAR but left when the slain dictator Kassem came to power.

Russians Seek Canadian Trade

OTTAWA (CP)—A four-member Russian trade delegation is anxious to reach agreement as soon as possible with the Canadian government on renewal of the current trade agreement between the two countries.

The delegation, headed by big affable Andrei Manjulo, chief of the Western countries trade department in the Soviet foreign trade ministry, arrived Tuesday night and was met by a group of Canadian trade and foreign affairs officials.

MAYBE DE GAULLE COULD SORT THIS OUT

Maybe the grand Charles should be here to direct traffic... Paris cars and trucks ride bumper to bumper along the Seine boulevard as workers utilized surface transportation when gas and electricity employees went on strike and this closed the metro (subway). A week-old walk-out also paralyzes the French mining industry. President de Gaulle has issued stern warnings to the strikers, but so far his voice has been ignored. (AO Wire Photo).

Temperatures Ran High On BC's Day Of Health

VICTORIA (CP) — It was health day in the legislature Tuesday with talk about hospital payments, medicare and chronic treatment centres.

As was to be expected Health Minister Martin came under fire from the New Democratic Party Opposition and from the Liberals. But in defence, the minister gave as good as he got.

And to cries of "stall" from the Opposition, he reiterated that Premier Bennett's Social Credit government will never go ahead with a complete health plan without co-operation of the federal government.

The government, he said, wanted no part of a program like the one he claimed brought "something like disaster" in Saskatchewan.

This brought howls from the Opposition benches.

NDP Opposition leader Robert Strachan said the Saskatchewan CCF government had made a great social breakthrough with its medicare plan. All North America was waiting to follow the lead.

"LIBERAL CHAOS"

He declared it was the Liberals that had tried to create chaos over the Saskatchewan plan. And he went on from there to take swipes at that party by calling it the "flycatcher party."

Mr. Strachan said former Saskatchewan health Minister Walter Erb had left the government to go to the "flycatcher party" down the way — looking in the direction of the Liberals on his left.

As for former CCFer Ross Thatcher, he had also "joined the flycatcher party."

At this Premier Bennett could no longer contain himself.

Interjecting, he said: "When a man like Thatcher fled a party—it doesn't matter which party he went to; that party would be better than the one he left."

Earlier at a sitting of the legislature's standing committee on forestry, Truck Loggers' Association director Larry Eckhardt claimed legislative immunity and then charged that Random Services Corporation limited of Vancouver is a source of "continual annoyance" to logging operators bidding on crown timber.

In fact, he said, there was no evidence that the company was actively engaged in logging at all, yet it held nine crown timber sales and had bid up 10 others at considerable expense to established operators.

The legislature's public accounts committee also met. In a crowded courtroom room it took its first evidence on charges of graft levelled against the highways department in connection with highways contracts.

In the general debate Liberal Leader Perrault demanded that Health Minister Martin name hospital officials the minister had said were playing politics about hospital payments from the B.C. Hospital Insurance Service. He said the minister had smeared all hospital boards. Hospital boards were hamstringed by the government.

Mr. Martin said he was not smearing, only making legitimate criticism and referring only to some members of hospital boards. The trouble was the hospitals did not send their budgets to the hospital insurance service soon enough and thus were left short of funds.

Elsewhere in the debate the minister told those who demanded chronic hospitals that not enough use is being made of government assistance available for construction of such hospitals.

To Opposition criticism of the government program for retarded children, he said a waiting list at Woodlands school was partly due to lack of experienced help.

NEW PSYCHIATRIST

A psychiatrist would join the Woodlands annex at Tranquille near Kamloops in April. As a result certain retarded children who could not be handled before now would be taken under care.

Mr. Martin said a mental health consultative service established in the Okanagan was so successful that 27 persons consulted recently, only four had to be sent to the provincial mental hospital at Essondale. Ordinarily all would have been sent there eventually.

TODAY'S STOCK QUOTATIONS

TORONTO (CP) — A number of fairly active speculative issues again pushed the volume over the 1,000,000-share mark after the first hour of trading as the stock market edged ahead today.			
The exchange index showed industrial base metals and western oils all ahead and gold fractionally lower.			
No individual main list group established the higher trend. One of the chief rises went to Canadian Celanese, up 1/2 to 50%.			
Other industrial gainers included Dupont and Walker-Gooderham, both up 1/2. Distillers Seagrams 1/2 and Shell Oil 1/4 on fairly heavy turnover.			
Scattered losers included Trans-Canada Pipe Lines, posting a rights issue today, off 1/2 to 24. Bell Telephone, trading ex-dividend 55 cents, down 1 to 54 1/2, and Shawinigan, trading ex-dividend 25 cents, off 1/2 to 20 1/2.			
Senior base metals were stronger with International Nickel up 1/2, Falconbridge 1/2 and Geco 1/2.

Dief Starts Tour In East Aimed at Holding Voters

SAINT JOHN, N.B. (CP) — Prime Minister Diefenbaker today launches a four-day election tour of the Atlantic provinces hoping to keep the area in the Progressive Conservative camp in the April 8 election.

On his first campaign visit to the East Coast the Conservative leader will be spending one day in each of the four provinces starting with New Brunswick.

This province's Liberal Premier Louis Robichaud added to the political tension Tuesday night by calling a provincial election for April 22.

The Atlantic provinces and the Prairies were the only two major areas that gave Mr. Diefenbaker's party a majority in last year's election, the Atlantic provinces dividing their 33 constituencies 18 to the Conservatives, 14 to the Liberals and one to the New Democrats. But in New Brunswick Liberals took six of the 10 seats.

Today Mr. Diefenbaker is scheduled to visit two ridings — St. John-Albert and Royal which his party won last year by comfortable majorities and then is to head into Moncton for an evening meeting which all of the province's Conservative candidates are expected to attend.

TIGHT RACE PROMISED

Moncton is the main centre of Westland constituency, where one of the province's most interesting contests is shaping up. Last year Moncton Mayor Sherwood Rideout captured the seat for the Liberals by a scant 116 votes and the Conservative opposing him this time is Moncton's Deputy Mayor Jean Paul LeBlanc.

The Prime Minister held his one rally Tuesday at St. Eustache, Que., just outside Montreal, where he described Canada's economic growth as "tremendous."

He told an audience of 700, about half of them students, that good times for the country had had times for the Liberals and that the Liberals "failed the facts last May and June" about the effects of dollar devaluation.

The Prime Minister delivered only a few attacks on the other political parties and recalled his own school days, emphasizing the importance today of technical training. He also put in a good word for his government's program of federal aid to vocational schools.

"When I was a boy, the only knowledge we had of outer space was that the cow jumped over the moon," he said. "The Canadian North was considered a useless wasteland. Now, government action had opened the North to an extent never before anticipated."

Low-Key Speech By Pearson Caps Long And Snarled Day

SHERBROOKE, Que. (CP) — A low-key speech to a generally quiet audience capped a long, snarled election campaign day Tuesday for Liberal Leader Pearson.

He drove about 130 miles to nearby Sherbrooke in the Eastern Townships to keep a 20-minute date at city hall—although three hours and 50 minutes late. He had been forced to switch to a car after his chartered aircraft was unable to get into Ottawa to pick him up.

Before about 500 persons here Tuesday night, Mr. Pearson struck a strong note of concern about Quebec's place in Confederation and reiterated Liberal party proposals for a national inquiry. He reviewed Liberal intentions on economic planning, international matters and other fields if a Liberal government is elected April 8.

He spoke in Social Credit country — a province which elected 26 Social Credit members of Parliament last June 18. Quebec has 75 seats.

"The Rock" Closes Up

SAN FRANCISCO (AP) — The warden of Alcatraz penitentiary says closing of the island prison will leave the United States without a federal maximum security institution.

The prison in San Francisco Bay is being closed as the result of a report that it would cost \$3,000,000 to modernize it and if it wasn't remodeled it should be closed down.

There are only 34 prisoners left on the island. The rest have been transferred to other federal institutions. Officials hope to have all the prisoners settled in other prisons by July 1.

MOVE TO LONGUEUIL

Today, Mr. Pearson and his wife were driving to Longueuil, across the St. Lawrence River from Montreal, for a noon civic reception and then going on to Joliette for a night meeting.

Speaking mainly in French at Sherbrooke, Mr. Pearson said the basis of Canadian development, despite European immigration, continues to be the "real partnership that exists between French-speaking and English-speaking Canadians."

Liberals wanted a "national study in co-operation with the provinces to examine this partnership and find the means to strengthen it."

It would have more depth than an ordinary royal commission and would cover bilingualism, bilingualism, the teaching of French and English and overall relations between equal partners.

Coloring Books, Diefenbucks Stir Up Election Campaign

By THE CANADIAN PRESS

The Liberal Party's coloring books and the "Diefenbucks" being handed out by the Progressive Conservatives got a lot of attention in election campaign activities Tuesday night.

In a major speech at Chatham, New Democratic Party leader T. C. Douglas declared the intelligence of the Canadian voter by offering the country coloring books and comic books instead of a planned program.

"Coloring books and crayons," the NDP leader said in a sarcastic reference to the satirical campaign pamphlets issued by the old-line political parties, "predominant color, I presume, is yellow."

"What this country wants and needs is leadership," he said. "Never has the bankruptcy of the old-line political parties been as evident as it was in the last parliament and as it is in this campaign."

"DIEFENBUCKS"

Just about the same time "Diefenbucks"—a Progressive Conservative pamphlet made to look like a Canadian \$1 bill and bearing a picture of Prime Minister Diefenbaker—were handed out at a Vancouver campaign meeting addressed by External Affairs Minister Green.

At Victoria police chief John Blackstock said the RCMP is to examine the "Diefenbucks" to see whether the counterfeiting section of the Criminal Code has been violated. And he warned against accepting them as the currency they resemble.

Mr. Green said the alternative to his party in this campaign are "pretty horrid." He said nuclear weapons were the main issue and accused Liberal Leader Pearson of changing his stand on the issue thinking it would bring him votes.

Of the U.S. Mr. Green said he thought Canadians and Americans understood each other very well.

"Sometimes we don't agree," he said, particularly with the U.S. government, but this is as it should be. Canada is no satellite of the U.S. It is necessary for a small nation like Canada to be careful in dealing with a big one like the U.S."

BRIDGE-BUILDERS

In an earlier address Mr. Green said Canada is one of the main "bridge-building" nations in the world for peace. She had a reputation for idealism and common sense in approaching world affairs.

In Victoria retired naval officer David Groos, Liberal candidate in Victoria riding whose nomination is under fire, said North America must keep up its guard with defence weapons across the north.

Youth Group Canvass Set For District

N.D.P. Youth groups from Kelowna, Oliver and Osoyoos will conduct a canvass and campaign visit in the Kelowna area this weekend.

The 25 members of the group will be in Kelowna Saturday, March 18. "This group will continue to canvass and campaign each Saturday from now until April 8 in the different areas of the Okanagan-Boundary political riding," said Mrs. Alma Foulds, secretary-treasurer of the Okanagan-Boundary N.D.P. association.

"I believe this is the first time a youth group has actively participated in the Okanagan. The group is concerned with such issues as no nuclear arms for Canada; free university education to the extent of academic abilities; along with other humanitarian aspects of N.D.P. policies."

N.D.P. candidate for Okanagan-Boundary John Young said, "There is no doubt about it that these policies of the group hold out the greatest hope and promise for the future of young people in this country and that they appeal to their ideals."

Mr. Young was speaking at a party meeting in Penticton.

Directors Elected For Rotary Club

The Kelowna Rotary Club elected its executives and directors for the forthcoming year at their regular weekly luncheon meeting this week.

Executive and directors elected include G. E. Ducharme, secretary; H. R. Chapin, treasurer and C. C. Fawcett, sergeant-at-arms; W. T. Hulman, W. L. Conn, E. R. F. Dodd, J. W. Lee and J. W. Peyton.

Date of the installation night has not been set.

The newly elected officers will be in office from July 1, 1963 to June 30, 1964.

C. D. Buckland was elected president at the February 19 meeting and W. O. Ainsley was elected vice-president at the February 26 luncheon meeting.

Shattered Window Reported To RCMP

A car window, mysteriously shattered and an unexplained break-in at the Kelowna Armouries were among the incidents reported to Kelowna RCMP overnight.

Vern Norman, Westbank, reported to police Tuesday the rear window of his car had been shattered. Police, on investigation, discovered the glass had been broken by some freak in temperature change or some flaw in the glass, and not by an act of vandalism as was first suspected.

A motor vehicle accident at the corner of Clement Ave. and Richter St. Tuesday was reported to RCMP. A car driven by Henry Tostenson, Kelowna, was proceeding along Clement when a car driven by Mrs. Stefanoff, East Kelowna, drove in front of the Tostenson vehicle. The total damages to both cars was not available. Charges will be laid.

Stewart Webster, caretaker at the Kelowna Armouries, was awakened early Wednesday morning by a crashing noise. RCMP were called and the building was checked. A front door was found to be open but further checking revealed nothing is apparently missing.

ADVERTISE QUEEN

MUSICALLY SPEAKING

With BETHEL STEELE

Last week's Kelowna Musical Productions' "The King and I" is finished and a wonderful memory. All the hard working participants can rest on their laurels and what laurels they are.

Starring Harold Pettman and Jean Braginetz with Valerie Moore, Milna Hartley, Bob Emalle, Jack Cooper and Gweneth Lloyd's Canadian School of Ballet, this production is the highlight of all the amateur theatre presented in this community in the last decade.

All the stars and all the talent, settings and costumes are as of nothing without a guiding hand. This show was Chrisle DeHart's show. As producer director Mr. DeHart represents the true meaning of the person responsible for all the different facets which go into the making of a show.

A producer director does not need to be a musician, an artist or an actor but he does need to possess that innate sense of what is right or wrong. Mrs. DeHart is a professional actor, and she does know her stage craft which is all encompassing. Her genius made each small fraction exquisite minute of the completed whole.

"The King and I" gave us the illusion of reality. This illusion is lacking in most Canadian theatre today. But last week I sat back and enjoyed an evening of sheer beauty of sight and sound and was able to live within the story as it unfolded before me.

As musical director, Douglas Glover enabled the perfect integration of drama and music. Keith Davidson's sets and Mrs. Davidson's decor were beautiful and of an economy never achieved before in Kelowna. The orchestra under Allan Knodel was never obtrusive.

The costumes, thanks to TUTS, were the finishing touch to a remarkable performance. The singing voices were outstanding and the speech perfectly enunciated and projected.

Bob Emalle's voice never sounded so well. He and Wilma Hartley were a pathetic Lun Tha and Tuptim.

The children were fantastically real even to the little rebel, Jack Cooper as the Kralahome very nearly stole the show. He was responsible for the perfect projection of the sensitive closing death scene.

Harold Pettman with Jean Braginetz were the foundation on which the show was built. Never once were they or the others out of character. They looked their parts and Mrs. Braginetz' singing as well as her acting were of professional calibre.

The highlight of the show was the ballet—"The small House of Uncle Thomas" as narrated by Wilma Hartley and danced by the students of the Canadian School of Ballet.

Adapted in part from the New York production, the choreography, by Gweneth Lloyd, as well as the masks and make-up, were true to the absolute stylism of the Eastern dance idiom. Again the iron discipline of Miss Lloyd and Mrs. Farally was evident, as the night this writer attended, the tempo, as set by Tuptim and the orchestra, was too slow and the dancers had difficulty keeping their balance. And yet the characterization never faltered. Janet Emerson was a wonderfully evil "King Sinner."

When will Kelowna learn that opening night is always a "gala" night wherever there is "theatre"? Opening night is not a glorified rehearsal.

SYMPHONY DAY PROCLAIMED IN KELOWNA

Mrs. W. J. O'Donnell, left, president of the Kelowna University Women's Club, is shown reading the official proclamation by the city proclaiming March 23 as "Symphony Day" in Kelowna. Mrs. O'Donnell presented Mayor R. F. Parkinson, right, with the symphony's yellow ribbon, designating him as a friend of the symphony. The Vancouver Symphony Orchestra of 62 members and conducted by Irwin Hoffman will stage a one-night concert in the Community Theatre March 23 at 8:15 p.m. The concert is sponsored by the University Women's Club.—(Courier Photo)

City Education Committee Assesses Week's Results

Several resolutions were made at a special meeting of the School District 23 Education Week committee held Tuesday, to provide continuity for the 1964 committee.

The meeting was held in the Kelowna Senior High School with the eight committee members attending.

The committee recommended that preparations for Education Week be started one month earlier, than in previous years to enable the committee to have more time in preparing their program with greater success.

The committee felt a greater effort should be made next year by the schools in preparing school display work.

It was recommended that the new committee submit their own recommendations for a motto and theme to the B.C. Teachers' Federation rather than accept a dictated motto.

Canadian Pacific Railway Promotes Baillie To New Post

George H. Baillie of London, England, has been appointed a director of the Canadian Pacific Railway Company and will become managing director, Europe, for the company April 1. He was well known in the Kelowna district.

Mr. Baillie's appointment as a director of the company was announced Tuesday, by N. R. Crump, chairman and manager, at a meeting of the directors held in Montreal.

Mr. Baillie, at present vice-president, special duties, for Canadian Pacific, will succeed Harry Arkle, London, in the post. Mr. Arkle is retiring under the company's pension rules.

In his new position, Mr. Baillie will be responsible for the Canadian Pacific Organization in the United Kingdom and Europe.

He is one of Canada's best known and most experienced transportation officials and has been associated with Canadian Pacific for 45 years. His most recent position has been vice-president, in charge of operation in Montreal.

GEORGE BAILLIE

Before that, Mr. Baillie had served as a senior official of the company in positions on Canada's west coast, through the prairies and in Eastern Canada.

Community Planning Group Lauds Area Real Estate Board

The Community Planning Association of Canada, through its executive secretary, has commended the Okanagan Mainline Real Estate board for its sponsorship of planning seminars in the district.

The fifth of six seminars scheduled for Kelowna starts at 7:30 p.m. tonight in the Kelowna Aquatic Lounge.

"Without the financial help of your board, it is doubtful if these lectures would have become a reality," said T. McDonald, the executive secretary of the national organization.

The meetings are co-sponsored by the Real Estate board, the UBC extension department, the Community Planning Association and a number of cities.

"I know the municipalities have played their part," said Mr. McDonald, "but it seems to our executive that you are deserving of great commendation."

"I would also like to add my own personal tribute to the board for the wide interest that has been aroused in community planning because of the lectures," he said.

Attendance at the weekly lectures in Kelowna have been some 75 people. Other meetings are being held at Kamloops, Vernon, Penticton.

City Air Cadets Ready To Roll, Seek Authority

At Tuesday's meeting of the five-member civilian sponsoring committee of Kelowna's proposed Air Cadet Squadron, it was decided to send a telegram to the B.C. provincial committee of the Air Cadet League to hasten authority to form the squadron.

The telegram told the authorities the Kelowna group is organized and ready to roll, said publicity chairman, Bill Cleaver. The present hold-up stems from lack of approval from the national organization.

by Air Cadet officials from Oliver, Penticton, Keremeos, Princeton and Vernon.

The Air Cadet Liaison officer, 5 Air Division and the chairman and executive members of the provincial committee were also in attendance.

The meeting was to discuss plans for Air Cadet squadrons for the coming summer as they pertain to annual inspection, summer camps, special courses, and flying training.

FORMER MEMBERS
"We would like to get some former members, get provincial approval for them and be able to send them to the Vancouver summer camp," said committee member Eric Sberlock. The sponsoring body is anxious to get the Kelowna squadron formed and in action. The size of the group will depend on what the officials from Ottawa direct but members are expected to have 50-60 boys between the ages of 14 and 17 in the group.

Truck Plates Still Unsold

Reports show there are still a number of commercial vehicles being used in Kelowna and district without meeting the 1963 licensing requirements.

To date a total of 1,832 commercial licence plates have been sold by the Provincial Government motor licensing branch in Kelowna.

"Of this total 1,566 commercial vehicle owners have acquired the newly required municipal licence or exemption plates," said city licence inspector Doug Johnston, today.

Those persons driving commercial vehicles without the 1963 licensing requirement are liable to a penalty of not less than \$25 or more than \$500.

"According to the City of Kelowna bylaw provided for the licensing of or exemption from licensing of commercial vehicles, 'no vehicle shall be used or operated on any highway in the municipality unless there is displayed upon the vehicle a valid and subsisting licence plate or exemption plate issued for the vehicle.'"

"Too many people," said Mr. Johnston, "are going by hearsay advice regarding the purchasing of these plates. All commercial vehicles are required to be licensed, and any inquiries should be made to the licence inspector at the City Hall."

CHAMBER OF COMMERCE BRIEFLY

The Kelowna Chamber of Commerce executive Tuesday received a telegram from the Vancouver Board of Trade regarding the increased rate on estate taxes. The 14-member executive agreed on sending a return telegram supporting their contention the rate increase be deferred.

Chamber agreed to pursue their efforts in procuring a guest speaker for their annual dinner meeting to be held possibly some time in April. No final date has been set.

Chamber president T. C. McLaughlin will meet with Mayor R. F. Parkinson shortly to discuss arrangements for a city council and chamber executive dinner meeting.

Mr. McLaughlin told the executive the chamber has sent flowers to O. L. Jones, well known Kelowna resident, who is in hospital in Vancouver with a serious illness.

The executive is preparing publicity and advertising data to promote "Chamber of Commerce Week" being held April 22-27. They will also conduct a membership drive.

C. A. Bruce told the meeting the Kelowna and District Parent-Teacher Council will sponsor the second in a series of four workshops, in co-operation with the UBC extension department, entitled Leadership in Community Organizations.

The Victoria, Capital City Travel and Educational Club bus tour will visit Kelowna May 26 and 27, said a letter received from Victoria. The group will conduct a sightseeing trip in the area.

The Wenatchee Apple Blossom Royalty will make their annual visit to Kelowna March 25 and 26. The group will include Queen Mary Radewan, her two princesses Paula McGuire and Jeanette Evans, along with chaperone Mrs. Gordon Condon and escorts Mr. and Mrs. Ed Enys. The group will attend the Monday night city council meeting and sign the guest book and attend a Rotary luncheon.

Funeral services were held March 1 for Ellis William Hawelock Broughton of Victoria, formerly of Kelowna.

Mr. Broughton was born on the Isle of Man. He is survived by his wife Nellie, two sons, Harold Ellis, of Vancouver, B.C., Frederick William of Toronto and three grandchildren.

Mr. Broughton was a member of the CNIB and a life member of the Masonic Lodge of Edson, Alberta. He was a CNR Pensioners' Association member.

The Kelowna chamber now has 248 paid up members for 1963.

OKANAGAN MISSION CHILDREN AT NURSERY CLASS

There's always plenty of laughter and excitement for these pre-school youngsters when it comes to fun and games, a part of their nursery class program. These youngsters are part of a nursery class school program held in the Okanagan Mission Community hall and sponsored by the association's ladies auxiliary. The classes, held once a week, also include painting. The activities are carried out from October to early spring. —(Courier Photo)

Red Cross Celebrates Hundredth Birthday

The Red Cross this year celebrates its 100th birthday.

It is one of mankind's finest tributes to the principles of humanitarianism. It is, too, an example of democracy at its best, of all races and creeds working in a common cause without prejudice or fear.

The vivid red cross on the white background is known throughout the world, synonymous with assistance and comfort in time of war and disaster.

The roles the Red Cross plays are many. They range from its dramatic work in time of war, to the making of bandages to the driving of veterans to ball games.

But its purpose is to help as described in the Canadian Red Cross Society Act: "To furnish volunteer aid to the sick and wounded of armies in war, in time of peace or war to carry on and assist in work for the improvement of health, the prevention of disease and the mitigation of suffering throughout the world."

A movement of the size of the Red Cross (157,000,000 members throughout the world) must necessarily have an effective organization. In the Red Cross this consists of five divisions.

The International Conference of the Red Cross is the supreme deliberative authority. The Standing Commission ensures continuity of co-ordination. The International Committee of the Red Cross (twenty-five Swiss citizens) works for continual improvement of the Geneva conventions. The League of Red Cross Societies is a world federation of eighty-eight societies. Then come the national Red Cross societies with their many branches.

The Red Cross was born in an age when wholesale suffering was first be-

ginning to arouse widespread sympathy. There was the Crimean War (1854-56) and the Austro-Italian wars in which, after one battle, 40,000 were dead and wounded after fifteen hours of fighting.

At that particular battle was Henri Dunant of Geneva. So shocked was he by the terrible suffering that he wrote a book on the harrowing experience which later was translated into six languages.

The book aroused enough public sentiment that in 1863 a conference was called in Geneva which was attended by representatives of sixteen European states. That was the beginning. In 1864, twenty-six agreed to the Geneva convention which provided that the wounded were to be respected, military hospitals were to be regarded as neutral and personnel and material of the medical services were to be accorded protection.

The convention was revised in 1907 to cover sea warfare, in 1920 to cover the treatment of prisoners of war and in 1949 to cover civilians. Mr. Dunant's contributions were recognized when he received one of the first Nobel prizes.

The domestic services provided by the Red Cross are as vital in their own way as those provided in war and major emergencies. Individual families are helped when disaster strikes, the water safety service has trained thousands of youngsters and there is the important blood donor service, to name just a few.

The world and its peoples have been well served by the Red Cross, and will continue to be in the years to come.

The King And I

Now that "The King and I" is history in Kelowna, perhaps an epitaph should be recorded. This can be done simply: The production was a complete success.

It is a week after the opening and as yet no criticism has been heard. On the other hand the words of commendation have bordered on the extravagant.

Certainly the production was well staged and well played. Those who attended had a thoroughly enjoyable evening and those who failed to attend missed a satisfying experience. This writer has paid more than three times the money to see a not-so-professional production in larger cities.

The comment of one woman, perhaps, best illustrates the crowd reaction. "When I was coming out," she said, "I looked at the theatre and I

thought about that performance, and I was proud to be a part of Kelowna."

And so, say we all. This performance of "The King and I" surely has demonstrated that the Civic Theatre is a tremendous asset. "The King and I" could not have been produced on a similar scale on any other stage in the area. It demonstrated that, given the tools, there is the talent here. Last week some two to three thousand persons saw and heard, with great pleasure, what can be done.

If success is its own reward, the cast and the behind-the-scenes crew of Kelowna Musical Productions must have been amply rewarded. The success was such that the public is already looking forward to their next production. This organization has made life in this area the richer for its efforts.

False Assumption

Discussion of President Kennedy's proposal to cut taxes on business profits has brought to light the interesting fact that in the United States there are some 500,000 companies with earnings of less than \$25,000 a year. That may seem a surprisingly large number of small firms but the fact is that most companies are small.

Here in Canada the most recently published tax reports, for 1960, show that of the 63,000 firms paying profits tax, 53,000 were in the \$25,000-a-year-and-under income group. Also in that year there were 32,000 companies that operated at a loss and did not pay a profits tax. It seems safe to

assume that most of these would be small businesses.

The figures above cover only incorporated companies, which are greatly outnumbered by unincorporated businesses. The latter are not subject to corporation tax but their proprietor's pay personal income tax on their business earnings. The 1960 tax records list 199,000 business proprietors, and their average income was \$5,286.

This would appear to indicate that, contrary to the popular assumption, business is mainly made up of relatively small enterprises.

In Passing

It's a good thing that women rarely know what they want. Just look how much they get as it is!

RUSSIAN SCIENTISTS BRING LIZARDS BACK TO LIFE AFTER BEING FROZEN FOR 5,000 YEARS — ANTON BOND

OK, COMRADES, TRY WORKING ON THIS

Knife And Fork Army Set To Probe Heart Ailments

NEW YORK (AP) — Armed with knife and fork and determination, 1,500 men are preparing to answer two great nagging questions about heart attacks:

Are North Americans eating their way into heart disease with too much fat and cholesterol in their food?

If so, would a change in diet help prevent heart attacks?

In five cities, these men aged 45 to 54 will take the first step intended to settle, once and for all, the cholesterol question.

They will show whether it is feasible for large numbers of men to stick for one to two years to an altered, controlled diet without interfering with normal patterns of living. And also show whether the amount of cholesterol in their blood comes down when they do try to reduce their intake of saturated fats and cholesterol.

If this test succeeds, 100,000 men may be enlisted for the final, critical experiment — will men consuming the altered diet

have fewer heart attacks than those who keep on eating our customary intakes of fats and cholesterol? That phase of the study could last two to three years or longer.

A "yes" reply would switch on an urgent green light for all or most Americans to adopt changes in their diet, with foods just as palatable and nutritious but containing fewer fatty ingredients.

SAME AS POLIO
This experiment is similar to field trials, with increasingly large numbers of children, that proved the sick polio vaccine safe and effective.

In human lives, the stakes are astronomically higher than in polio. Polio was a relatively minor disease in terms of numbers of humans afflicted. But heart disease kills 1,300 men and women every day, nearly one a minute and brain strokes take another 500 lives daily. Middle-aged men are particularly susceptible.

The killer usually is a clogging and rusting of arteries, known as atherosclerosis. Cholesterol is part of the "rust."

It's known that a high level of blood cholesterol is associated with a higher risk of heart attacks.

The typical U.S. diet is high in saturated fats and cholesterol, coming mainly from animal sources such as dairy products and some meats, compared with the diet of people in some other countries who are far less prone to heart disease.

It is known, too, that blood cholesterol levels can be reduced in men or women on diets that cut down total consumption of fats, that substitute some polyunsaturated fats, mainly from vegetables and fish or seafood, for the saturated kind, and that reduce total cholesterol intake.

NOT PROVED
Once a man has had a heart attack, most doctors now advise changing to this kind of diet in hopes of warding off another.

But the point is not proved yet that millions of healthy persons might sidestep or delay heart attacks or strokes if they switched and stuck to the lower-fat diet. Obviously, any such massive change in diet would hold profound implications for the dairy and meat industries, and many food processors.

Obesity, lack of enough exercise and heavy cigarette smoking are other suspects.

The 1,500 volunteers will be participating in Baltimore, Minneapolis, Chicago, Boston, and Oakland, Calif.

They are all married men and must be healthy and free of heart disease or diabetes. Each must have the complete cooperation of his wife.

They won't go hungry and often they won't even know whether a dish of ice cream or a hot dog or piece of chocolate cake is the real thing or a special substitute containing less saturated fat and more polyunsaturated fat.

KEPT IN DARK

Nor will their wives know. Nor will the doctors participating in the experiment know until it is over. Each volunteer will be assigned a code determining his particular dietary intake.

Each housewife can order such items as leg of lamb roast, veal chop, tenderloin steaks, pork chops, liverwurst, hot dogs, sausages, chili con carne, pizza pie, chicken casserole, salad oils, cheeses, ice cream, cakes, pies, cookies, and others at a special store.

TODAY IN HISTORY

By THE CANADIAN PRESS

March 13, 1963

Adolf Hitler continued his expansionist foreign policy with the annexation of Austria 25 years ago today—in 1938. Only two days earlier troops had crossed the frontier to take the country without a fight. He acquired Austria by manipulating an abrupt crisis in Austro-German relations and then sending his army in to forcibly incorporate it in the Reich. Czechoslovakia and Poland were soon to follow in the train of aggression which started the Second War.

1953 — Russia vetoed a United Nations security council recommendation that Canada's then external affairs minister, Lester Pearson, be named secretary-general.

1960 — Arkansas ratified a new state constitution.

VICTORIA MERRY GO ROUND

Odd Excitement In BC Legislature

By JAMES K. NEWMITT
VICTORIA—With their minds more on the federal election campaign and the grant and corruption charges against Highways Minister Gagliardi, your MLAs plod along their weary course, passing detailed expenditures of \$337,000,000 of your money for the public service.

There have been the odd, exciting moments, as when NDP Anthony Gargrave of MacKenzie called all the Social Crediters nothing but a pack of scoundrels. Naturally hearing this highly unparliamentary phrase Mr. Speaker Hugh Shantz pounded his gavel for order, demanding that Mr. Gargrave withdraw. If Mr. G. did not, warned Mr. Speaker, he would "name" Mr. G., which would mean he would be ejected from the House in disgrace.

Grudgingly, and shaking with cold fury, or making himself appear that way, for the sake of dramatic effect, all good politicians being actors, Mr. Gargrave withdrew, having had his say.

It's quite a technique, this—an MLA hurling a deliberate insult across the floor of the House, knowing full well he'll have to withdraw, or be escorted out by the sergeant-at-arms, in full panoply of his office.

There's always the withdrawal, but the point has been made, and the offending MLA has succeeded in telling his political enemies exactly what he thinks of them. This is called getting it off your chest. Would that we ordinary mortals could do the same, without getting our noses punched in.

SC Dan Campbell of Comox had a slight tilt one night with

Liberal Gordon Gibson of North Vancouver, he of the booming voice and the heart of pure gold, so to speak, a man whose bark is far worse than his bite.

Gibson feels the Scott government should give up its Peace River plans and spend the \$600,000,000 on higher education.

No, said school teacher Campbell, B.C. needs both the Peace River development and higher education. If there's not both, only higher education, said Campbell, B.C. will have one big bunch of highly educated employable unemployed.

The five Liberal MLAs took courage in hand and voted against the increase in the home owner's grant from \$50 to \$70 a year. They took the view it is one big political bribe dreamed up by Premier Bennett to perpetuate himself in office.

Young Dr. Patrick McGeer, who defeated Social Credit in Point Grey last December, expressed the Liberal viewpoint: "I don't believe in handouts, and I do believe political principles have to start somewhere."

This caused the premier to hop up and say: "We now have it very clearly that the Liberal party is the party of big business—and that they're against the ordinary working people, against the small houseowner."

Opposition Leader Robert Strachan said he's against this grant on principle, too, but that he wouldn't be so politically foolish as to vote against it. Mr. Strachan was sincere and honest in admitting his motive.

And so the session goes. Everyone hopes it will be all over by March 22.

Tax Return Day Deadline Nears

OTTAWA (CP) — About 6,000,000 Canadians must file 1962 personal income tax returns before May 1 and two changes await their scrutiny.

Most will welcome one. It implements the \$50 increase authorized by Parliament last year in the exemptions to be claimed for each dependent child. The new exemption is \$500 per child.

The other will mean more arithmetic for many tax filers although no higher federal tax.

It follows the withdrawal last March 31 of the federal government from the tax-rental field which it shared with all provinces except Quebec.

The federal government has agreed to continue collecting tax for all provinces except Quebec—but a number of taxpayers must figure out how much they owe to each government.

Residents of seven provinces — Newfoundland, Prince Edward Island, Nova Scotia, New Brunswick, Ontario, Alberta and British Columbia — won't pay any more federally or provincially than under the 1961 scheme.

Manitoba and Saskatchewan are assessing residents more. Quebec continues with its own assessment and collection.

Federal tax authorities say they expect more errors in tax returns until the public catches on to the changes. This is a normal reaction to any such innovation.

Early returns show some evidence of this, they say, al-

though as usual the most action so far has come from Canadians who can report a rebate.

Human nature being what it is, the majority who must pay tax rather than get some money back tend to take longer to file returns.

Tax calculation for 1962—with the so-called 71 form used by about 80 per cent of all persons filing income tax returns—proceeds much the same way as in 1961.

Total income is listed. Then allowable deductions are set out. This produces total taxable income.

Tax on this income is calculated although this year this amount is called federal tax.

Then, after any adjustments or credits, the figure for the so-called "basic" tax is produced. At this point the tax filer has to figure out what 16 per cent of that basic tax is. This is the portion that will go to all provinces except Quebec. He deducts that from the sum he owes the federal government.

Finally, he adds to his federal tax total a flat \$50 or three per cent of his taxable income, whichever is less. This is for the universal old age pension.

In previous years no separate calculation was required of the taxpayer to work out the amount for old age security tax. The tax rates and tables supplied with each form included it in their figures.

There still is a simplified amount of calculation possible for a number of Canadians, however.

UNITED KINGDOM REPORT

Ancient Station Below Ground

By M. McINTYRE HOOD

Special London (Eng.)

Correspondent

For The Daily Courier

LONDON — Workmen engaged in the task of making excavations for the new Euston Station which is now under construction in London have made an interesting discovery. They have found

that under the present Euston Station, deep underground, there is another station. It was at one time the terminus of a 98-year-old railway.

Forgotten underground railway. Few Londoners of the present century even knew of its existence, but the story surrounding it is rather out of the ordinary.

This station was the terminus of a three-mile long underground railway, and the tube in which its train ran, runs under Drummond Street, Tottenham Court Road and Holborn to St. Martin's-le-Grand. And it differed from the underground railways of today in that it carried automatic, driverless trains.

These trains ran at an average speed of 35 miles an hour, and on the down grade under Farringdon Street, they often reached 60 miles an hour, a speed which to this day has never been reached on the tubes under London's streets.

G. W. Parkin, the electric traction engineer at London

Midland Region's Stonebridge Park power station, has been making an intensive study of this old railway since its terminus and tube were unearthed by the Euston excavators. Says Mr. Parkin:

"It was really an amazing feat at that time. The air pressure required to propel the trains through the tube was provided by two 24-horse-power engines, which drove fans capable of forcing the train forward by an atmospheric pressure, or bringing them to a halt by air pressure in front."

But this ancient underground railway was not built to carry passengers. It was built for the privately owned Pneumatic Despatch Railway for the carriage of mails and parcels between Euston and the General Post Office headquarters in St. Martin's-le-Grand. It was officially opened by the Duke of Buckingham on November 7, 1863, and on that day some of the country's most eminent engineers were taken on it for a joyride.

One of the passengers on this journey, made in pitch darkness with the tube roof literally only inches from his face as he lay on one of the trucks, said afterwards:

"It was a curious sensation to be flying along feet first under the earth in utter darkness, the sensation at starting and on arrival being far from agreeable. The pressure on the ears is suggestive of a diving bell, the icy blast of cold air being accompanied by a rusty smell. The degree of comfort could be likened to riding in a truck over the worst ballasted railway in England."

BRIDE GETS WARNING, GROOM GETS SLAP ACROSS THE FACE

The bride, Peteranna Kearsland, 17, is miffed, top, as her grandmother gives her a tongue lashing, urging her to go through with marriage to John Fourie, 23, after premarriage mixer at Dutch reformed church in Johannesburg.

burg, South Africa. John forgot to post the wedding banns. Cajoled by the bride's grandma and the church organist helped in getting Peteranna to go through with the ceremony. The wedding was delayed for two hours.

Apparently, however, the bride was still disturbed after the ceremony and she gave vent to her pique by slapping her husband across the face, bottom, when photographers asked the couple to embrace for a picture. (AP Photo)

ANN LANDERS

One Adult Needed

Dear Ann Landers: Three months after our marriage my wife and I had a spat. She said "I'm sorry." That was 20 years ago and she has never uttered those words since.

I have to be the one to give in, right or wrong. If I refuse, she turns on the ice and I get the silent treatment. This can go on for days at even weeks. Finally I decided life in a deep-freeze isn't worth it, so I apologize, even though I know she is in the wrong.

She moved into the guest room on New Year's Day and has been there ever since. She says she'll move back when I apologize.

We have two children, no money worries, no drinking problem, and no petty in-laws. I've never looked at another woman, although there are times when I wonder why.

Is it possible I've been right only once in 20 years? What do you suggest?—ETERNALLY WRONG.

Dear Eternally: I suggest that it would be nice if there were at least ONE adult in your family. Since your wife is operating at an 11-year-old level why don't you be the grown up?

She knows when she's right and when she's wrong. If two little words can thaw the deep-freeze, say "em, for heaven's sake," don't just stand there and shiver!

Authentic Dish Much Soicier

TORONTO (CP)—Sweet and sour spare ribs, chow mein, chicken and almond, and fried rice are often the only Chinese dishes Canadians know.

But there are many other dishes and delicacies more authentically Chinese, says David Lamb, whose restaurant, "The Kwongchow," specializes in authentic Chinese dishes.

Real Chinese food is spicier than its Americanized versions. Mr. Lamb says, giving chop suey, made mainly with bean sprouts and other vegetables, as an example of an Americanized dish.

Chop suey, which translated means "a mixture of this and that" was accidentally invented by a Chinese cook in the United States and has become known in Hong Kong but not in China.

American-style chow mein is made by adding fried noodles to the chop suey dish.

Authentic Cantonese-style chow mein made in Canton, the southern province of China, where Mr. Lamb was born, is made with soft noodles rather than bean sprouts.

It also contains black Chinese mushrooms, abalone, a rubbery-textured shellfish of the oyster family and squid, which Mr. Lamb describes as baby octopus. These ingredients are not usually put in American-style chop suey.

The key to good Chinese cooking is freshness, Mr. Lamb says. Sweden plans to make birth control part of a major part of its program of aid to underdeveloped nations.

Dear Ann Landers: Our son is 19. He is in college and making fairly good grades.

During Christmas holidays Maynard went to visit his girlfriend who lives in another city. While there he called and announced that he had given her a ring and wanted us to meet the girl's family.

When we got there we were shocked to see the ring was actually a wedding band with two rows of diamonds. My husband hastened to inform Maynard the the "engagement" ring was actually a wedding band.

Maynard said his girl didn't like the conventional engagement rings so they decided on the band. Now, how do we explain this ring to our friends? It looks to all the world as if they are married.

Maynard did not react well to his father's criticism and says we are making a big flap over nothing. Are we?—M. and D.

Dear M and D: If Maynard and his fiancée don't care for conventional engagement rings they probably don't care what conventional people say.

Make no apologies to your friends for the girl's ring. You neither have to defend nor explain your son's "taste."

Dear Ann Landers: I'm a high school student 17 years of age. A few weeks ago I had an accident in my mother's car. No one was injured but the repair bill was \$50.

My parents are making me pay for the damages which I think is fair, but I DON'T like the way they want to do it.

I get an allowance of \$4 a week. They want to take out \$2 a week which would leave me poverty-stricken. I wouldn't have a spare nickel.

I want to pay the repair bill with money from my bank account. This money has been put away for my future education. I would return the \$50 to the bank account when I go to work this summer. My parents have agreed to abide by your decision. What do you say, Ann?—CHASH.

Dear Crash: You're going to hate me but your parents are right. Punishment is useless if it imposes no burden.

The alternative which you have dreamed up for yourself is too painless. Take your lumps like a good kid.

Confidential to Kooked Up: Rejection is not the only reason a young girl would seek the affection of an older man. Sometimes it is a case of Papa worship.

Methodist Women Fight Illiteracy

TORONTO (CP)—The World Federation of Methodist Women, with a membership of 6,000,000 in 47 countries, is helping stamp out illiteracy and provide leadership training in underdeveloped countries, federation President Mrs. Raymond J. Latham of Sydney, Australia, said Monday night.

Mrs. Latham told a conference of the United Church Women, an affiliate of the federation, that Christianity alone is not enough to cure the ills of the world, including communism.

Mrs. Latham left Australia Jan. 6 to attend a meeting of the Methodist Latin American Confederation in Mexico City. She will meet federation members in England, the Middle East and India.

HAVE WEIGHT PROBLEM
WINDSOR, England (CP) — Organizers of Princess Alexandra's wedding reception April 24 face a weighty problem when it comes to rolling up the carpet for dancing. The carpet in the Waterloo Chamber, where the reception is being held, weighs more than two tons and has not been up since it was laid in Queen Victoria's reign.

Women

WOMEN'S EDITOR: FLORA EVANS

Women More Practical Than Men When Selecting A New House

TORONTO (CP)—Women are far more practical than men when it comes to buying a house, says Mrs. Shirley Brunko, chairman of the women's division of the Toronto real estate board.

"That would be a lovely house if we didn't have to live every day" is a comment made by women to Mrs. Brunko.

The everyday little things that influence a woman's choice of a house are such things as a door directly from the garage into the house for bringing in groceries, an entrance through which service people can go into the basement without passing through other parts of the house, and especially if she has children, a main floor wash-room.

Women consider whether the furniture they already have will be appropriate for their new house. "If they have been accustomed to modern design and furniture, they are hesitant about older and colonial styled homes."

"Women are also tired of being chauffeurs and want to live near libraries, schools, shopping centres."

KITCHEN IMPORTANT
The kitchen is one of the most important factors in a woman's choice of a home, says Mrs. Brunko. "If a woman likes two houses that are about the same price, she will probably choose the one with the nicer kitchen."

Nosey Neighbors A Bit Nervous

TORONTO (CP)—Borrowing a cup of sugar or an egg is often the way curious neighbors attempt to confirm their suspicions about the people upstairs. But this sort of thing doesn't seem to happen at one north Toronto duplex.

The folks downstairs may suspect that Barbara Froom keeps snakes, but, she says, "they're probably too nervous to come and see."

Miss Froom is editor for the two-year-old Canadian Amphibian and Reptile Conservation Society which is devoted to the preservation of snakes, turtles, lizards and other reptiles and amphibians.

"Of all living things, these fascinating creatures are the least understood and least appreciated," she says. "We just want people to realize their economic value and leave them alone."

Although Miss Froom has five pet snakes in her own home, she doesn't recommend them as pets.

"They are meant to be free in nature, and the average person doesn't have the time or patience to look after them properly."

NEED PROPER FOOD
All of Miss Froom's snakes—four garters named Bijou, Bettina, Buttons and Bows and a smooth green snake called Greenie—must be hand-fed each day. And they require a carefully balanced diet if they are to remain healthy.

Elderly Newfoundland Woman Cherishes Prized Handwork

ROCK HARBOR, Nfld. (CP)—One dull, windy day last autumn, Mrs. Sarah Brown emerged from her home in this two south coast fishing settlement and hung some of her most prized handwork on the clothesline.

Mrs. Brown, now over 80, is still an expert at hooking and making mats. Like many older Newfoundland women in the outports, she cherishes her hand-made heirlooms as a city woman might care for her costume jewelry.

Long ago she learned that aside from a once-a-year soaking and scouring in salt water down on the shore, all that is needed to keep the mats clean is an occasional airing. And it's just as important that the dyes chosen for air-drying be overcast as well as windy. The sun might make the colors fade.

To understand how Mrs. Brown and other mat-makers feel about their work, one need only glance around the living room. Her finest hand-made "masterpieces" won't be found there. They are carefully packed away in trunks or packing cases.

SAVED FOR SUNDAYS
And while the extra-special mats are kept to be shown to friends and other visitors and are never walked on, there are other almost-as-prized floral-patterned mats that are spread on floors only on Sundays, or on some special occasion such as the visit of a minister or doctor.

Mat-making was once common in every cove, harbor and small town in Newfoundland. The art has all but disappeared from the larger settlements. And even in some tiny communities it has given way to television as a way to spend the long fall and winter evenings.

Mothers and their daughters usually do the designing and hooking while the younger children, their chores and lessons finished for the day, are assigned the task of ripping apart discarded garments of various colors and cutting the pieces of fabric into strips. It's often necessary to dye some pieces of cloth when certain colors aren't available.

Hooking is for the experts. Long narrow strips of material are intricately hooked through the braid. The process, which resembles braiding or plaiting, is done with a short wooden handle with small hook attached.

Poking or punch is much simpler. A semi-sharp piece of hardwood a few inches long is used to make the short, broad strips through the braid. Poked mats are used for kitchen or porch.

While mother and daughter sit on either side of the mat frame hooking or poking, the fishermen father sits in the corner of the kitchen knitting twine for his lobster pots, herring nets and cod traps.

WIFE PRESERVERS

Many-care cotton look better if they are removed from the door before completely dry, and hung to finish. Touch up with steam iron.

HATS CAME HIGH
Far hats from Canada became popular in England in the mid-1800s but cost the equivalent of six month's wages for a skilled workman.

ALL STARS CONGRATULATE THEIR CONQUERORS

Vernon Brief To Cabinet Urges College Site Here

VERNON (Staff) — City of Vernon brief, which is not completed, will be forwarded to the provincial cabinet recommending a two-year college for the North Okanagan and protesting the site recommended for a four-year college in the Macdonald report on higher education.

A similar brief was presented to Education Minister Petersen by a delegation from Vernon headed by Cecil Clark last week. According to Mr. Clark, Mr. Petersen called for slight revision in the brief including support for the report by neighboring communities in the North Okanagan. These are in the process of being solicited.

Coldstream council has endorsed the Vernon brief, Lumby council also supported the document but with reservations. Lumby will support the brief for a college in the Okanagan, but once the site has been chosen by Victoria, they will accept the decision and back it. Mr. Clark says M.A. Hugh Shantz, North Okanagan says the college site is not settled and is a matter for cabinet decision. Monday night in secret com-

mittee session, Vernon council endorsed the brief which is now in its third form, according to city solicitor Neil Davidson. Early Tuesday Mayor Bruce Cousins declined to confirm or deny that council endorsed the brief, but later Tuesday said council had done so in camera.

Ald. Harold Thorlakson confirmed to The Daily Courier it was endorsed by council Monday night.

VERNON "HUB"
The Vernon brief, according to Mr. Clark suggests that Vernon, not Kelowna, is the hub of the Okanagan when Kamloops

and district is considered. The Macdonald report excluded Kamloops from the Okanagan placing the top populations in the Valley between Vernon and Penticton. Kelowna central of the three cities. Dr. Chapman, who spoke in Vernon last week confirmed Kamloops was not taken into account in choosing the west side of Okanagan lake near Kelowna as the proposed site.

Vernon, Mr. Clark said: "Got the short end of the stick" when Dr. Macdonald, while preparing the report, asked to meet in Vernon "only a small select group." He says "that is exact-

Rubbish By-Law Allows City Compulsory Clean-Up Right

COLDSTREAM (Staff) — Councilors and the city clerk first reading to a bylaw which will prohibit accumulation of rubbish on private property.

Known as the rubbish regulation bylaw, it will authorize council, when ratified, to order property cleaned if necessary and in default council may send its own works crew and charge the cost to taxes if not otherwise paid. The bylaw also applies to dumping in open places.

Another bylaw — district of Coldstream reward bylaw — will, when approved, authorize council to offer \$50 reward for information leading to the apprehension or conviction of a person who violates by dumping garbage on the highway.

IN OTHER COUNCIL NEWS:
The annual temporary loan bylaw for \$50,000 is expected to be approved next council meeting. The amount is necessary for normal operation of the municipality.

A meeting has been set for a discussion on general staff policy and salary for March 19.

TENDERS AWARDED
Tenders were awarded for heating and electrical wiring for the new \$7,000 workshop built behind city hall. Okanagan Electric was successful bidder for the electrical wiring. Seymour and Son for the heating. Both firms are based in Vernon.

A letter was received from H. F. Mackie to council, congratulating the fire brigade on its recent quick action in saving a cottage on his property. The letter is to be forwarded to the fire department.

Council will meet with the district superintendent, department of highways, April 1. Road crossings across Highway six will be discussed.

Council agreed to advance Vernon Jubilee Hospital \$2,000 to aid in construction of a new boiler plant and wing. Vernon council recently advanced the hospital \$10,000 for the same purpose.

IN VERNON AND DISTRICT

Wed., March 13, 1963 The Daily Courier Page 8

"Stars" Eclipsed By Coast Team

VERNON (Staff) — New Westminster Royals won the right to meet Cranbrook for the provincial midget hockey crown by virtue of a 12-8 two-game total goal series against Vernon All Stars in Vernon Monday and Tuesday nights.

Down three goals going into the second game, the Coast crew waded back Tuesday night to wamp Vernon 10-3 before more than 600 fans in the Civic Arena.

Showing peak conditioning and good co-ordination, the Royals wasted little time in opening by scoring when fast skating Tom Pepper scored his first of four goals of the night at 8:37 of the initial stanza with Kerry Gallagher picking up the assist.

It was the Royals again at 11:12 of the first when Glen Wilson teamed with Jim Hovest to bring his team within a single goal of Vernon, but Vernon hit the score sheet on a slick three-way play by George Watson, Vernon Colley and Mike Clarke, with Watson taking the honors to end first period scoring.

Showing one of the few good plays of the night, Vernon tied the game at 2-2 at the 18 second mark of the second period when Mike Clarke picked up a pass from the face-off from Watson to beat Royals' goalie Don Wallis.

He said Vernon has 98 acres of government land on Mission Hill which "would cost the government absolutely nothing" if it chose to locate a college here.

Mr. Clark charged the committee in selecting the Kelowna location as having done "absolutely no research into costs." In fact Dr. Chapman admitted to me (Clark) he did not know the site was Indian Crown land.

KAMLOOPS A PART
"Why Dr. Chapman ruled out Kamloops as part of this area I don't know. They do everything else with us... play hockey, are part of our Okanagan-Mainline 'Chambers of Commerce, and distance from Vernon is only 78 miles... the same as Penticton..."

Mr. Clark said it was expected the brief would be completed in "a few days" and would at that time be presented to the cabinet for study.

Other letters will be sought by Vernon, and he indicated in addition to the Vernon Chamber of Commerce, the North Okanagan "would be behind the council brief." Vernon Chamber has gone on record as supporting a four-year college in the area, but has not thus far commented on the site.

Mr. Clark commended wryly that Kelowna organization "did a masterful job of lobbying" during the conference on higher education in Kelowna Saturday. He did not elaborate.

The first line of George Watson, Vernon Colley and Mike Clarke did the scoring for Vernon.

Penalties ran high in the game as a total of 25 infractions were handed out for a total of 54 minutes in the box for offenses.

Vernon picked up 14 of these, including two 10-minute misconducts and two five-minute fighting penalties to goalie Dennis Taylor and defenseman Gordie Clarke who were in a brawl in the last seconds of play in the game.

Royals' Tom Hockely and Wayne Spooner got the same penalty for the affairs which could mean they may sit out the first game against Cranbrook for the part in the fight.

New Westminster held a wide edge in the shots on goal department as they kept Dennis Taylor busy with 32 pucks that came his way. Don Wallis for the Royals had a comparatively easy as he came through with 17 saves most of them in a spectacular fashion.

FINDS NEW STAR
A new star between the Hercules and Lyra constellations has been discovered by Swedish astronomer Ellis Dahlgren.

ALL ROYALS

From then on it was all New Westminster as they completely dominated play scoring four times in the second and four again in the third before Vernon could hit the score sheet to end the night's game with the Royals on top 10-3.

Vernon showed but sporadic flashes of the night before as the visitors played a close checking and tight defensive type of hockey throughout the encounter and kept pressure on the Vernon players at the same time.

Star-of-the-night for the Royals was Ron Pepper with his four goals, while teammate Wayne Goss picked up a pair. Other Royal scorers were Glen Wilson, Kerry Gallagher, George Parrett, and Ray Wallis.

Religious Group "Likely Source" Of Diphtheria

FORT MACLEOD, Alta. (CP) — Dr. Kurt Adler, medical health officer for the Chinook Health Unit, says members of a radical religious group may be the source of infection for an outbreak of diphtheria which already has claimed two lives in southern Alberta.

He said Tuesday some members of the 100-strong "Black Stocking" sect of the Dutch Reformed Church have refused to have themselves or their children immunized against the contagious disease, which was first reported three weeks ago and has been contracted by 15 persons.

"God knows why they don't take vaccinations," said Dr. Adler. "I guess they don't believe in it. But they won't refuse immunization for their animals."

He said a number of the Dutch Reformists in this community 100 miles south of Calgary are known diphtheria carriers and at least two have come down with the disease.

H. K. Roesling, vice consul for The Netherlands at Calgary, said he is familiar with the group's religious beliefs and understands they are opposed to any form of insurance.

Aces Edge Teddies 44-43 In Hoop Tourney Opener

Visiting Saskatoon Aces squeaked out a narrow 44-43 win over the Okanagan Minkie Teddies in Kelowna Tuesday night to take the opening game of the "A" women's basketball championship.

Three teams are entered in the double knockout tournament. The Aces, coached by B.C. coach "A" (women), and the Teddies, coached by B.C. coach "A" (men), are the only teams to have won the "A" championship in the past.

The Aces, coached by B.C. coach "A" (women), and the Teddies, coached by B.C. coach "A" (men), are the only teams to have won the "A" championship in the past.

Following the game Teddies' coach Bob Hall said: "They're a good ball club but winning by one point doesn't mean a thing. We lost the game on their fast break in the third quarter. Their accurate shooting from the outside is what killed us."

"We're not out of the tournament yet," said Hall. "We'll be out to knock off Alberta on Thursday night."

Saskatoon coach Bob Stayer, said: "Our club is not used to playing against a zone defence, but we shot well from outside. For the amount of shots we took we were satisfied with the scoring."

"We had a good player in Ruth Hudson who re-injured her ankle during the game and will miss the Wednesday night game against Alberta."

Trail Blasts Kelowna 12-4 Advance To Juvenile Finals

Trail knocked off Kelowna 12-4 and again one minute later, the two-game total goal B.C. Juvenile semi-finals last night at Kelowna. The powerful Trail squad trounced Kelowna in the second game 12-4 winning the round 227.

Bill Simpson led the Trail attack with a hat trick. Ron Morris, Clint Eccles, Mickey Hamm and Nino Cristofoli notched two apiece, while Mervin Neil tallied once. For Kelowna, Wayne Oliver and Mervin Verna were the marksmen.

Trail opened fast scoring three times before the first minute had elapsed with Morris counting at 1-0.

Kelowna put them back up at 3-2. Kelowna finally broke through at the 16-minute mark with Evans scoring from the side. Trail went ahead 4-1 in the last minute when Hamm scored from a scramble in front of the net. Trail outscored Kelowna 3-2 in the second period. Less than a minute after Kelowna's Blackburn tallied, Simpson banged in two goals within 28 seconds. Cristofoli fired his first at the midway mark and Oliver re-tallied four minutes later.

Trail swarmed all over Kelowna in the final stanza almost scoring at will. Hamm counted at 11-5 and Simpson chalked up his third goal at 12-0. One minute later Neil tallied followed by Cristofoli's second at 12-04. Eccles clinched Trail's scoring spurge hanging in his second at 12-15. Verna notched Kelowna's fourth goal at the 17-minute mark. Kelowna's spare goalie Al Burt replaced Tom Schramm for the last period but this move failed to stop the Kootenay club.

Trail picked up eight of the 15 minor penalties handed out, in addition to a 10-minute misconduct to Ken Uilloc late in the third period. Kelowna were outshot 58 to 47 in the game.

Trail: Goal, D'Arcangelo; defence, Corrado, Percellato; centre, Morris; wings, Cristofoli, Toffolo; spares, Neil, Uilloc, Simpson, Eccles, Whitley, Hamm, Aiken, Chabanuk.

Kelowna: Goal, Schramm; defence, Doug Hecko, MacKinnon; centre, Verna; wings, Dave Hecko, Evans; spares, Strong, McClelland, Matsuda, Blackburn, Wildeman, Leler, Oliver, Casey.

Although the Aces proved to be the faster team the Teddies were able to contain them the better part of the game, using their solid zone defence and forcing the Aces to shoot from the field.

The Aces played a consistent man to man, fast breaking attack throughout the game. Their accurate field goal shooting proved to be the deciding factor.

Teddies showed lacklustre in picking up the rebounds and were outshouted on the backboards by the fast moving Aces.

The Teddies failed to capitalize on two breaks in the final 30 seconds of play. Carol Casillo failed to tie the score on a free throw, then with only five seconds left went in ahead of two opposing players on a clean lay-up shot and missed the basket that would have provided the Teddies with the win.

Father Bauer Leaves After Hockey Joust

STOCKHOLM (AP) — Rev. David Bauer, who will coach Canada's next Olympic hockey team, left by air for Canada today after sitting out the opposition at the current world hockey championships.

"I came here to see just what kind of players we will require in Canada's team," Father Bauer said. After watching the teams in action for the last three days he remarked, "I have to say they are very good."

The 1964 Olympic team, not yet selected, will be made up mostly of college students, some older graduate students and some senior amateurs, he said.

Rugby Team To Tour Canada March 31

TOKYO (Reuters) — The Japan Rugby Association said today a Japanese rugby union team will visit Canada shortly for a series of five goodwill matches.

They said the team is scheduled to leave here March 31 and return April 21. Two of the games will be in British Columbia — against a University of British Columbia team April 13, and a B.C. junior team April 15.

Smokies Tie Czechs 4-4 Canadian Defence Lapses

STOCKHOLM (CP) — Trail over Russia gives the defending champions a strong chance for another title.

The Swedish power blossomed fully Tuesday in a 17-2 victory over the United States while Russia went through little more than a skating drill as it overwhelmed East Germany 12-0. Both were fourth-round games.

Canada and Czechoslovakia won by far smaller margins against the Americans—10-4 and 10-1. Russia plays the U.S. Thursday.

On the other hand, Russia's margin over the East Germans was the widest of any of the contenders. Sweden trimmed the East Germans 5-1 while Canada scored an 11-5 decision and Czechoslovakia coasted 8-3.

The standing of the leaders:

Team	W	L	T	G	A	Pts
Sweden	4	0	0	28	4	8
Czechs	3	0	1	32	9	7
Canada	3	0	1	31	13	7
Russia	3	1	0	34	6	6

JUBILANT ACES AFTER WIN OVER TEDDIES

Saskatoon Aces basketball team gather for their picture after they narrowly defeated the Okanagan Minkie Teddies in the first game of the Canadian championship. Left to right are: Bob Stayer, coach; Warren Schweitzer, coach; Marlene Ackerman, Gloria Wasley, Ruth Hudson, Dianne Hanish, Pat Dobie, Anita Serbowski, Margaret Little, Fay Herrick, and Judy Jensen. The Aces will tangle with the Edmonton Jasper Auto Parts tonight at 8.

Canucks Edge Flyers 2-1 Regain Lead Over Seattle

By THE CANADIAN PRESS
Vancouver Canucks, who have decided with Seattle Totems all season, moved ahead again Tuesday night in the Western Hockey League's Northern Division.

Like so many of the Canucks' two-point leads, it will probably be short-lived.

Their scrappy 2-1 victory over the last-place Edmonton Flyers will be challenged tonight when Seattle takes on the plucky San Francisco Seals. A Seattle win would tie it all up again.

Edmonton goes on to Portland and Los Angeles moves up to Spokane in other action.

Tuesday, before 2,514 Vancouver fans, Canucks piled up

McCallum Named Rifle Club President

The annual meeting of the B.C. Inland Rifle Association was held in the board room of the B.C. Tree Fruits on the 11th inst.

The OC of the local unit B.C. Dragoons, Lt. Col. A. Moss was appointed honorary president, and the following were appointed the table officers for 1963: President, P.C. McCallum; 1st vice-president, W. J. Lightburn; 2nd vice-president, J. M. Lee; secretary-treasurer, C. R. Lee; executive members: S. M. Lee, G. N. Kennedy, R. G. Fraser, J. E. Vecqueray, H. Richardson, R. Maddocks, W. A. Cousins, G. Campbell.

The annual shoot will be held on the Penticon range, with the Penticon club in charge of arrangements for the two-day shoot on June 30 and July 1, 1963.

STILL LANDING THE BIG ONES

Jim Trengold holds two lake trout caught by Dan Hill of 960 Manhattan Drive, Kelowna. Mr. Hill caught these two beauties off Bouchery Point on the Okanagan Lake Sunday, March 10, on a Big Butch plug. Mr. Hill has established quite a feat this year as he has caught 190 pounds of fish in his 12 trips out on the lake since November. The fish on left weighs 20 pounds and the fish on right weighing 11½ pounds.

Tourist Trade Looking Better

OTTAWA (CP)—Canada's unfavourable tourist trade balance amounted to \$50,000,000 in 1967, less than one-third of the 1962 deficit of \$160,000,000, the Dominion Bureau of Statistics said today.

The improved travel picture was attributed in large part to devaluation of the Canadian dollar in May, 1962, and to a reduction to \$25 from \$100 in the value of duty-free goods Canada

may bring into Canada from the United States.

OTTAWA (CP)—Archaeologists are puzzled at the continued discovery of ancient wooden canoes in a swamp near New Zealand's east coast. They are of a kind made by the Maoris before the coming of the white man. So far some 150 have been found—many more than previously reported in all the country's museums.

In the actual case, though, the bid was far from successful. The other three players passed and West led the ace of diamonds. Eventually West took three trump tricks and declarer went down one.

At the second table, South was more coy. He passed as dealer, confident that in a hand where he was missing 13 clubs and 12 diamonds there would be plenty of action. He wanted to see which way the wind was blowing before making up his mind about where or how far to go.

To his surprise, West opened the bidding with a spade. The bidding proceeded:

South West North East
 1♠ 1♦ 1♠ 1♦
 2♠ 2♦ 2♠ 2♦
 3♠ 3♦ 3♠ 3♦
 4♠ 4♦ 4♠ 4♦
 5♠ 5♦ 5♠ 5♦
 6♠ 6♦ 6♠ 6♦
 7♠ 7♦ 7♠ 7♦

West led the ace of diamonds. This bidding declarer to his contract. If he had led anything else, South would have made the slam with an overtrick.

Opinions would probably differ as to whether South's best course of action is to pass originally or open with one spade or four spades. Hands with 4-4-1-0 distribution occur so rarely that a good argument can be made for crawling into the final contract with them, because the opponents, not surprisingly, are caught unawares by the unexpected distribution.

There is no doubt that in this case South's tactics at the second table turned out very well.

YOUR HOROSCOPE

FOR TOMORROW

Handle all obligations and responsibilities with care tomorrow. And what must be done, do yourself. Don't rely on the co-operation of others.

Routine matters run more smoothly than new enterprises.

FOR THE BIRTHDAY

If tomorrow is your birthday, your horoscope indicates that March, which is your month, should prove a highly profitable period on most counts, so make constructive plans as quickly as possible, where both job interests and finances are concerned and keep plugging. You'll not accomplish far more than you expect, but will be able to wind up the next 12 months of your life in a better position than you may now anticipate for yourself.

The fine cycle in which you are presently operating, and which will last for another month, is a period for opportunities. Do make the most of them! Also, of excellent offerings during the last four months

of 1967.

Personal relationships will be under good aspects for most of the year ahead, so you should find domestic, social and sentimental matters lively and stimulating. Romance will be governed by especially fine influences during May and June; travel favored during July and August.

A child born on this day will be sensitive and intuitive and will be guided largely by his emotions.

REVIVE SYMPHONY

MONTREAL (CP) — The Montreal Youth Symphony Orchestra is being reorganized after disbanding 10 years ago. More than 16 young musicians are rehearsing for the first concert in May.

MACHINES MOVE IN

A century ago 79 per cent of working energy was supplied by animals and six per cent by machines. Today machines provide 96 per cent.

How to Measure for Your Windows!

Accuracy is essential! Use a yardstick or steel rule (inch tape measures stretch). List all measurements in inches, using lengths you want as shown at left. Also measure exact width desired. Measure area to be covered, not the window itself!
